

HAIR RESTORATION NOW OFFERED AT PLASTIC SURGERY OF PALM BEACH!

Plastic Surgery of Palm Beach's Dr. Ernesto Hayn now specializes in the most natural-looking and up-to-date hair replacement technology available. Utilizing single- and double-hair replacement techniques, Dr. Hayn can reverse the appearance of hair loss, returning his patients to a youthful, healthy, self-confident look.

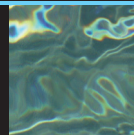

Whether your hair loss is due to illness or genetic predisposition, if you are a viable candidate Dr. Hayn's hair restoration techniques will:

- Help improve self-esteem and overall appearance
- Replace thinning eyebrows and eyelashes
- Return you to everyday activities worry-free

If you suffer from premature hair loss due to pattern baldness or an autoimmune disease that prevents hair growth, find out today what you could look like tomorrow!

A highly qualified surgeon, Dr. Hayn joined Plastic Surgery of Palm Beach in 2004. He also specializes in cleft lip repair, breast reconstruction, cosmetic surgery and post-bariatric surgery. He earned his undergraduate degree at Boston University and his medical doctorate degree at the Ponce School of Medicine in Puerto Rico. He continued his education at Nassau University Medical Center Level 1 Trauma and Burn Center on Long Island, New York. Dr. Hayn completed his General Surgery training at NUMC, and continued on with a Plastic Surgical fellowship under the auspices of the Long Island Plastic Surgical Group at Northshore Medical System, Southside Hospital, Winthrop Hospital and NUMC. Dr. Hayn is currently on staff at several local hospitals and maintains memberships in several professional societies, including:

- American Medical Association
- Florida Medical Association
- Palm Beach County Medical Society
- Palm Beach County Society for Plastic Surgeons
